Scott –

Kaytrue Ting has worked on these reclassifications generally, and Derek Mills worked on the most recent bump-up for Sheboygan. I'm including them here.

Kristi,

Who in OGC would be a point of contact for this type of issue?

Can someone send John a response with contacts he should work with in OAQPS and OGC? Thanks.

Subject: Quick heads up on Sheboygan, WI

In the interest of absolutely no surprises I wanted to let you guys know that I was at a meeting with Sheboygan County, WI officials last week (including aides from Sen. Johnson and Rep. Grothman's offices, along with two State reps and others) where they were asking a bunch of questions about ozone designations, nonattainment areas, and the lakefront monitor.

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5 Most questions were routine (can we shut down the monitor? Why can't we redesignate? Why are we being victimized?) The new wrinkle was interest from the group to ask EPA for some type of new monitor classification/exemption that would recognize a transport dominated monitor in some way (and delink the data from local nonattainment requirements). Of course, no such mechanism currently exists but they have asked me to explore whether we would be statutorily limited from doing something or whether we had authority to explore a regulatory fix. At this point they have no specific proposal.

Deliberative Process / Ex. 5 The group understands that they need EPA's new leadership to be in place to pursue things further. They are also waiting for new modeling on Sheboygan's contribution from LADCO. **Deliberative Process / Ex. 5**
Deliberative Process / Ex. 5 At some point we'll need to do some follow up so let me know who I should work with at OAQPS and/or OGC on the authority issue.

Hope you are all well,
 John
